Write Your Full Name in ASCII & Binary

Using your ASCII table, write your full name (first, middle initial and last) and translate to the ASCII and Binary. Use both upper and lower case letters as appropriate. Don't forget spaces. Use one letter per row, if you run out of room continue on the back side of the paper.

Letter	ASCII decimal	Binary Conversion							
N	078	0	1	0	0	1	1	1	0
